Education

Ph.D. in Business Administration (Information & Decision Sciences)

University of Minnesota – Carlson School of Management

Advisors: Gediminas Adomavicius & Mochen Yang

Minneapolis, MN

2022–2027 (*Expected*)

M.S. in Data Science

New York University

New York, NY

2022

B.B.A. in Information Systems

City University of Hong Kong

Hong Kong

2020

Exchange Studies: *Indiana University Bloomington & Nanyang Technological University*

Research Interests

Topics: Trustworthy AI, Personalization Technologies, Generative AI, Data-driven Decision Making

Methodologies: Machine Learning, Agent-based Simulation, Deep Learning, Analytical Modeling

Journal Papers under Review

Impact of Data Privacy Regulations on Recommender Systems Performance

Liben Chen, Meizi Zhou, Yicheng Song, Gediminas Adomavicius

Conditional Acceptance at **Information Systems Research (ISR)**

Echoes of Manipulation: The Reinforcing Effect of Preference Bias on External Perturbations in Recommender Systems

Liben Chen, Meizi Zhou, Jingjing Zhang, Gediminas Adomavicius

Under Second-Round Review at **INFORMS Journal on Computing (IJOC)**

Self-Consistent Machine Learning: An Ensemble Smoothing Approach Based on Prediction Confidence

Liben Chen, Mochen Yang, Gediminas Adomavicius

Under Review at **Machine Learning**

Working Papers / Work in Progress

Recommending on a Data Diet: Attribution-Based Data Minimization for Privacy-Aware Recommender Systems

Liben Chen, Gediminas Adomavicius

In Preparation for Submission

Are LLM-Based Generative Recommenders Robust to Adversarial Manipulations?

Liben Chen, Xuan Bi, Gediminas Adomavicius

In Preparation for Submission

Reliable Policy-Based Governance of Automated/Augmented Decision-Making Systems

Liben Chen, Mochen Yang, Gediminas Adomavicius

Work in Progress

Conference Publications & Presentations

The Longitudinal Interplay of Preference Bias and External Perturbations in Recommender Systems

Conference on Information Systems and Technology (CIST), San Francisco, CA 2026

Are LLM-Based Generative Recommenders Robust to Adversarial Manipulations?

Summer Workshop on AI for Business (SWAIB), China 2026

Recommending on a Data Diet: Attribution-Based Data Minimization for Privacy-Aware Recommender Systems
